

Dear Producers

Kindly be informed that the work on the PDMA website has been completed.

Farmers and Live Bird Trader registrations may now take place online on www.poultrydiseases.co.za. Farmers will still be required to forward all health declaration permits directly to Malesedi@sapoultry.co.za. Live Bird Traders can now also submit their MONTHLY SALES RECONCILIATION online. Producers are requested to assist Live Bird Traders who may not have an existing email to create one for online registration as indicated below in 4 easy steps:

1. Get the cellphone number of the trader. E.g. 082 123 4567, and other required details asked for by the site.
2. Create an email address using their cell number. In the above example, the username will be 0821234567@gmail.com.
3. The producer may now assist the Live Bird Trader to register on the site as a Live bird Trader with that email address, and complete the registration using all the trader's information.
4. Print the Trader Registration number and give it to the trader. Traders should keep this number safe as they will use it to access the portal.

The Poultry Disease Management Agency would like to thank producers for their support and co-operation.
