Re: Notice on support for Transformation Projects

Dear Egg Producers

This serves as a formal notice following several requests to SAPA Egg Organisation for assistance with farm inputs such as feed and medications. We regret to inform you that due to limited resources and other industry challenges we are unfortunately unable to fund or assist the producers on ad hoc requests for farm inputs. We would like to also assure you that SAPA Egg Organisation is committed to continuing to support and build up businesses with clear strategic objectives.

We understand your requests for our support and it is our wish to offer you our utmost favorable support. But due to the above mentioned reasons, please note we will suspend assistance on ad hoc requests, and on formal requests, we will continue supporting projects that are approved by our internal processes.

Thanking you in advance

Yours sincerely

Dr. Abongile Balarane

GM: Egg Organisation
