BROILER INDUSTRY PRODUCTION REPORT: MAY 2017

NOTE: ***April's broiler industry production report was the last until further notice.***

The number of producers submitting monthly data to the survey is, from May 2017, insufficient to produce a statistically meaningful report which is compliant with Competition Commission requirements. The Broiler Industry Production report is used extensively by the industry, banks, government, research organisations, NGO's, investment houses and SADC, so it is regrettable that it will no longer be available. There will be an unavoidable impact on several other SAPA reports, including the quarterly Key Market Signals report and the annual Industry Profile.

All producers, whether SAPA members or not, are urged to contribute data on a monthly basis to keep this report going. Grateful thanks to producers who continue to send data to the data collectors at SAPA.

Input sheets are included for your convenience, should you wish to contribute production data, from May 2017 onwards. Please complete the applicable form. Email cynthia@silverpath.co.za for assistance in completing the input sheets.

Any and all information, data, know-how, documentation, materials and other communications, written or oral, which are disclosed or provided to SAPA or its designees by a SAPA member shall be regarded as confidential information belonging to that member and will not be disclosed to any other member
